

EECE 571M / 491M: Introduction to Hybrid Systems and Control

Project Presentations Schedule

Dr. Meeko Oishi

March 30, 2008

A tentative ordering is listed below; we will start with presentations on Monday, April 7. I anticipate 2-3 presentations per day and expect full class participation (e.g., attending, listening, and asking questions). Please try to keep your presentation to 15 minutes to allow some time for a brief question and answer session. A make-up session will likely be held Monday 10-11 if we do not finish all of the presentations by Friday; this session is optional but I strongly encourage your attendance to support your fellow students.

1. Ehsan Azadi Yazdi
2. Pedram Ataee
3. Omid Namvar Gharehshiran
4. Anne-Kathrin Hess
5. Sahar Monfared
6. Ivan Sham
7. Ben Kerby
8. Layali Rashid
9. Erik Miebling, Pablo Selem, and Yuanyuan Cherry Yin
10. Nikolai Matni
